

# What is Empowered Feminine?

Clare Spink N.D.

# Evolve "Embody" Empower

Journey through the process of discovery and healing to **EVOLVE** to a woman one who can access the wisdom within to **EMBODY** her true passions, living life as a

**SELF EMPOWERED** woman!

## A Journey of Discovery

Through a journey of discovery using a blend of massage modalities, and Trauma therapies; we start to unravel the stories held within that are restricting us from living our fullest, juiciest and creative life!

Accessing the wisdom of our womb, yoni, heart & soul, we unearth the passions and ideas that reside within, just waiting to rise up into juicy creativeness.

Living our truth, following our path and having clarity as to who we are, empowers us to be amazing women!

# What IS an Empowered Woman?

An Empowered Woman is one who is living life in **Alignment!**A woman who is following her Heart with her **Passions**,
her **Creativity** & her **Visions**.

A woman that says YES to what she TRULY wants to do and has the strength within to say NO to those situations that are not in alignment with her truth.

An Empowered Woman knows that Self Care & Self Development is vital for **Restoration, Rejuvenation & Realignment**.

# What is Empowered Feminine Therapy?

Starting with a consultation where you share "your story"; we address trauma patterns & explore inherited wounds, together we then focus on what you would like to achieve.

I then create a bespoke therapy for each woman; blending a fusion of nurturing abdominal, womb & lower back massage with creative visualisations.

Wisdom surrounding **birth imprints, ancestral trauma** & **patterns, menstrual medicine** and **restoring your soul** will be shared.

**Empowered Feminine Therapy** has been designed to unravel patterns, beliefs, and imprints, reveal visions and desires and help women work with our cycles.

### Our Wombs are Our

# Creative Centre

This may seem a strange thing to say, for many, you would imagine that your HEAD is where all ideas derive from – but when you discover that our menstrual cycles drive our moods, our creativeness and our wisdom – it's a lightbulb moment for many, that if we are disconnected from our creative feminine centre, then we are not truly living our fullest, creative, juiciest life!

Our wombs are our creative centres, creating physical life, ideas and visions.

**Womb Massage** is a sacred, feminine art that nourishes and nurtures the womb. You are lovingly held in a **safe space** to start to unravel your own stories and traumas that are stored within your body and womb.

Using a variety of healing tools in the sessions, invites an opportunity for women to heal their wombs.
